from the federation

DANIEL SCHRENK IS THE NEW PRESIDENT FOR THE EUMABOIS TOOLGROUP

Service development is a top priority for toolmakers

Daniel Schrenk, Managing Director for Sales and Marketing with the German LEUCO AG is the **new President for the Eumabois Toolgroup**.

He is successor to Paul Oertli of Oertli Werkzeuge AG, Switzerland, who was President for four years. **"I am really looking forward to this new task.** The European tooling industry will be facing many challenges in the next few years: speedier transformation from suppliers to service providers with an extensive range," says Schrenk. **Users in the wood and furniture industry benefit significantly from the toolmakers' procedural expertise.** This is an area the industry must develop further to be prepared for the future. "This is the field we would like to actively participate in as the European representative for companies. I would especially like to thank my predecessor for his commitment and dedication to developing safety standards and to making the industry known to the public," Schrenk continues.

The Eumabois Toolgroup represents the interests of the approximately **250 precision tool manufacturers** within the European umbrella association for woodworking machinery producers (Eumabois).

WORLD EXHIBITIONS NETWORK 2015

The general assembly approved the **exhibition calendar for 2015**, including all the events that will be sponsored by Eumabois, the European federation of woodworking technology, tools and accessories manufacturers.

Exhibitions are one of the key topics on the federation's agenda. Constantly committed to limiting the proliferation of events that only cause a waste of resources for companies, the organization selects and supports **exhibitions that guarantee specific standards** to exhibitors and visitors, representing an effective and tangible reference in the respective world region.

Aimsad - Turkey

AIMSAD CONTINUES TO GROW FAST

AIMSAD HELD ITS SECOND AND THIRD SECTOR REPRESENTATIVES MEETINGS IN ANKARA AND IZMIR

Woodworking Machinery and Side Industries Businessmen Association (AIMSAD), which constantly repeats its desire to become an association embracing Turkey and the entire sector at different locations since it was founded on **June 6th, 2014**; had the decision to have some of its Board Meetings in Istanbul and some in other cities of Turkey, as well as organizing events for **"Improving Member Relations and Meeting Sector Representatives"** at the same dates following these meetings.

In line with this decision, AIMSAD Board of Directors had held its first Board Meeting in **Bursa on November 7th, 2014** and since then, AIMSAD continues to meet with the sector representatives in different cities.

In this context, AIMSAD Board of Directors and Secretariat General were in Ankara on **January 22nd, 2015** and in Izmir on **February 26th, 2015**.

The interest was huge to AIMSAD's Sector Representatives Meetings. In the meetings, AIMSAD President Mr. Mustafa Sabri EROL, who talked on behalf of AIMSAD Board, thanked guests for their participation and shared information regarding the **"Action Plan and Project Forecasts of the New Management Term"**. Mustafa S. EROL, who also invited all sector representatives to join AIMSAD as members, talked about sectorial statistics and AIMSAD's efforts regarding domestic and international fairs as well as their contacts with public bodies.

AIMSAD BECAME A MEMBER OF TURKISH MECHANICAL INDUSTRY PLATFORM

Woodworking Machinery and Side Industries Businessmen Association (AIMSAD) became a member of **Turkish Mechanical Industry Platform (MSSP)** as of **March 2015**.

AIMSAD SIGNED A COOPERATION AGREEMENT WITH TUYAP

Woodworking Machinery and Side Industries Businessmen Association (AIMSAD) recently signed an agreement with REED TUYAP Fairs Inc.

The Agreement signed on March 19th, 2015 foresees close cooperation of the Parties as regards **"International Wood Working Machinery, Cutting Tools, Hand Tools Fair"** also known as the **"Wood Processing Machinery Fair"** organized at TUYAP Buyukcekmece Fair and Congress Center every year. The first fair in cooperation will be realized on **10 - 14 October 2015** in **Istanbul, Turkey**.

FITECMA 2015

From **FITECMA** first edition (1994) up to now, the woodworking and furniture industry has gone through the stage of greatest transformation in its long history. The continuous and astonishing evolution of technology has been, if not the main reason, at least one of the most influential ones in the new appearance the industry was gaining in the last two decades. Machines, tools, supplies and components opened a challenging range of production possibilities.

FITECMA has reflected those changes at each of the eleven already held editions. In 2015 (from June 23rd to 27th), it will again become the forum of business and technological novelties par excellence for Argentina's woodworking and furniture industry.

Covering the whole of Costa Salguero four halls, in this occasion the fair will join **150-odd exhibitors and 280-odd marks represented in Argentina and abroad**, what assures to the wood-furniture value chain that FITECMA 2015 will present a large and varied offer of each of the areas, which will include the latest advances recently incorporated into the global market, in addition to the special launches being prepared by domestic manufacturers.

This unquestioned appeal – which no other wood thematic fair in Argentina can offer – in addition to an ambitious promotion program in Argentina and abroad implemented along 24 months, in which the institutional presence at all industry activities being held in Argentina and abroad (fairs, one-day seminars, congresses, seminars, etc.) stands out; allows to predict that the fair – such as it has happened at previous editions – will have a very good summoning of visitors from Argentina and the region.

LISDEREVMASH - THE LEADING UKRAINIAN TRADE FAIR OF WOODWORKING TECHNOLOGY

LISDEREVMASH is the leading Ukrainian trade fair of technology for woodworking and furniture production. For many years, the event holds the status of the best business platform for foreign companies wishing to enter the Ukrainian market in order to find customers, partners and dealers.

LISDEREVMASH 2015 will be held in Kiev on September 22-25.

Owing to the extensive list of topics, **LISDEREVMASH** attracts a wide range of exhibitors from different sectors of the woodworking industry. Its exposition is divided into four main sections: **WoodMachinery** (technologies for forestry, as well as machines, tools and equipment for wood processing); **FurniTech** (equipment, materials and components for furniture production); **WoodProduct** (sawn lumber and timber, trim moldings and millwork); **WoodEnergy** (waste wood disposal, production of biofuels and heating systems running on them).

Every year, **LISDEREVMASH** enables Ukrainian companies to get acquainted with the most interesting technological innovations of the world's leading brands. That is why the event attracts thousands of visitors – top managers, entrepreneurs, engineers and chief engineers. In 2014, **LISDEREVMASH** was visited by more than 6500 specialists.

This trade fair is popular among industry professionals due to its orientation towards global cooperation. Companies from Germany, Austria, Italy, Poland, Spain, France, Ukraine and other countries demonstrate their products here.

Status of **LISDEREVMASH** as the international trade fair is confirmed by the Global Association of the Exhibition Industry (UFI). In addition, the event is supported by the European Federation of Woodworking Machinery Manufacturers (EUMABOIS), as well as such professional associations as ACIMALL (Italy) and AFEMMA (Spain).

We invite foreign companies to visit the leading industry event, which will become a convenient bridge for entering the Ukrainian market.

NEW SOLUTIONS FOR DESIGN AND PRODUCTION IN WOODWORKING MACHINERY AND INTERMOB FAIRS

The Largest Trading Platform of Eurasia Exhibits Accessories , Materials , Tools and Woodworking Machinery Used in Furniture Production

The biggest fairs of the industry in Eurasia- **Wood Processing Machinery and Intermob** fairs are preparing to open the doors on **October 10 - 14 ,2015** at Tuyap Fair Convention and Congress Center, **Istanbul**.

The fairs will be realized by the active participation of the domestic and international company and company representatives leading the industry. Our sales and marketing teams have started working intensively following 2014 fairs. As a result of our team's active marketing activities, the fairs will present the exhibitors requiring to access new markets and increase their current market shares, an efficient platform to exhibit their products and meet with the right customers . In this period, the project team is also running the private invitation and procurement committee activities. **In 2015, it is expected the fairs to be visited by thousands of domestic and international visitors.**

REED TUYAP Fairs has an effective marketing activity especially in Eurasia through her overseas offices and global representative network. Our professional sales and marketing teams have been working for procurement committee organizations non-stop to meet the exhibitors with the right customers. **In 2015**, we are expecting to host a **huge number of visitors from 30 countries** through procurement committee organizations-organized by the support of consulates whilst we had hosted from 25 countries in 2014. Our sales and marketing activities are continuing in Turkey and abroad through the industrial fair visits. Besides, **targeted visitors of the fairs are being invited through the associations**, publications and online portals within industry. We are organizing procurement committees for the fair period in cooperation with the chambers of industry and commerce. Our teams have been also building important contacts in Anatolia intended to meet the exhibitor companies with the right customers. As a result of promotioning activities pursued with the increasing frequency through media by the whole year, **in 2015**, again, **it is expected thousands of attendance to the fairs.**

The fairs realized with the attendance of **861 company** and company representatives from **30 countries** in the last year; will be exhibited in **14 halls on 120.000 sqm** in the consequence of the new investments. In 2015, there will be also new companies operating in the industry of furniture upholstery products and technologies. Numerous companies will launch their new products and last trends during the fairs. The professional exhibitors and visitors will take the opportunity of observing the last technologies on wood processing machinery, furniture accessories and forestry products. Figures of 2014 are the proof of the importance of the fairs within industry. The fairs-visited by **60.064 professionals from 102 countries**, will create, again, a platform of innovation and improvement.

COMPREHENSIVE SHOWCASE OF SUSTAINABLE AUTOMATION & SMART FACTORY SOLUTIONS FOR THE WOODWORKING & FURNITURE INDUSTRY

- **One-stop access to the latest woodworking and furniture technology.** WMF 2016 features top-notch woodworkmachinery manufacturers around the globe and a series of concurrent events that mainly explore green innovation and automation solutions.
- **The best sourcing hub for high quality Chinese woodworking machinery and supplies.** Inaugurated in 1986 with China National Forestry Machinery Association as one of the organizers, WMF is supported by 3 most prominent woodworking machinery associations in Qingdao, LunJiao (Guangdong) and Shanghai.
- **International recognition.** WMF is supported by EUMABOIS, VDMA - German Woodworking Machinery Manufacturers' Association and Taiwan Association of Machinery Industry.
- **High-calibre buyers.** As the largest professional woodworking machinery exhibition in China, the last WMF attracted 23 Chinese and 6 overseas buyer delegations in attendance.

XYLEXPO 2016 REGISTRATIONS READY TO GO

Missing over a year since the start, all the procedures necessary to open the registrations at the show have been completed. It is already possible **to download the application forms** from the website xylexpo.com and, in particular, in the section dedicated to exhibitors.

We suggest you to stay up to date about the numerous news we will present in the coming months, dedicated to all trade operators. **Follow us on Facebook, Twitter and LinkedIn.**

XYLEXPO AMONG THE "TOP EXHIBITIONS"

The Ministry of Economic Development has recently announced **the list of exhibitions considered strategic for the Italian economy** that, considering their importance, will have access to dedicated funds under the plan of support for the "made in Italy", provided by the Italian Stability Law.

The biennial world exhibition for woodworking technology and components for the furniture industry, that **from Tuesday 24 to Saturday, May 28, 2016** will celebrate in the fieramilano Rho fairgrounds its twenty-fifth edition, has been recognized as "an instrument of industrial policy "in favor of its sector and, as such, it was included in the list of "**32 top fairs**" that represent national events of primary importance; not only for the role they play in favor of the "made in Italy" and the internationalization of Italian businesses, but also because they constitute showcases of excellence in the world, places where exhibitors and visitors from around the world meet and confront creating value for the entire supply chain worldwide.
